## PROJECTS

- **Music Streaming Platform – Spotify Clone**  
**Tech Stack:** HTML, CSS, JavaScript
  - ⇒ Developed a Spotify clone built with HTML, CSS, and JavaScript, featuring a responsive design and functional music player.
  - ⇒ The application allows users to browse through popular artists, albums, and playlists, and play their favorite songs.
  - ⇒ With a sleek and modern interface, this project demonstrates a comprehensive understanding of front-end development.
- **Portfolio Website**  
**Tech Stack:** HTML, CSS, JavaScript
  - ⇒ Designed and built a sleek portfolio website showcasing projects, skills, and achievements.
  - ⇒ The website features a responsive design, smooth scrolling, and animations to enhance the user experience.
  - ⇒ The website also incorporates JavaScript libraries like ScrollReveal and Typed.js to create dynamic effects.
- **Video Streaming Platform – Netflix Clone**  
**Tech Stack:** HTML, CSS, JavaScript
  - ⇒ Developed a Netflix clone for on-demand video streaming with a user-friendly interface.
- **MVD Academy: Learning Management System**  
**Tech Stack:** HTML, CSS, JavaScript
  - ⇒ A dynamic web application was developed to cater to the needs of students and teachers, offering a range of features that enhance their educational experience. The application allows users to create profiles, access academic performance reports, and view test information, while also facilitating the sharing of meeting information.
  - ⇒ Additionally, teachers can provide valuable feedback to students, which is seamlessly displayed in their respective student portals.
